DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-3, 9, 10, 17-21 and 34, drawn to a semiconductor device, classified in class 257, subclass 690.
 - II. Claims 4-8, 11-16 and 22-33, drawn to a method to manufacture a semiconductor device, classified in class 438, subclass 107
2. Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by another and materially different process that does not include the steps of laminating a conductive foil to a major surface of a dielectric layer wherein a smooth portion contacts said major surface; applying a negative acting resist to said conductive foil; developing said resist forming openings; and etching the exposed conductive foil, wherein said etching forms a connection pad.
